Critical Intelligence Problems Committee

28 May 1985
DDW-116

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--29 May 1985

CIPC Organizational Activities

- The Mobile Missile Panel continues to meet almost daily in an effort to produce an agreed-upon final report by 31 May. They have sustained this pace for over two weeks.
- The BMD briefing for Bud MacFarlane is scheduled for 3 June at 1400. Ed Collins is prepared and his briefing material has been completed. In addition, Ray has made arrangements for Ed's equipment needs through the White House Situation Room.
- The revised CBW Intelligence Subcommittee Report is presently being reviewed by Bob and Ray. We should have it ready for your review by the end of the week.
- 25X1 ● On 28 May, [] attended the first NIO at Large Warning and Forecast Meeting devoted to CBW. The need for such a meeting was identified by the CIPC CBW Subcommittee.
 - The meeting apparently went well and was limited to warning and forecast issues, however, Paul believes that, in time, the scope of the meeting will be broadened because of Community persistence/pressure.

25X1 Narcotics Intelligence: []

- Work continues on drafting the Narcotics Follow-up Study. An initial draft is scheduled to be completed by the end of next week. Paul continues to help George with the follow-up study. Last week Paul visited DIA and the US Custom Service, where he obtained their perspective on narcotics intelligence. While at Customs he arranged for a meeting with Janet Labuda, Customs program officer, []
25X1 [] Paul and George met with
25X1 Ms. Labuda on 28 May to explore how her study might benefit the Intelligence Community. Additionally, Paul is continuing to research the flow of information from law enforcement to the Intelligence Community and reporting from intelligence collectors on narcotics-related subjects since 1982.

International Terrorism Activities: [REDACTED]

- Jim attended the third meeting of the IR&DC's Steering Group for Counterterrorism R&D. His MFR is attached.
- The DO counterterrorism briefing that we mentioned last week will be provided in Bob's office on Thursday at 1030.
- The final draft of the report by the IICT's Subcommittee on Requirements Management has been prepared. It is being reviewed by the subcommittee members and their comments will be provided this week. Jim hopes to submit the report to Charlie Allen by 3 June.

25X1

Mobile Missile Study: [REDACTED]

- The Executive Secretaries of the Defense Science Board Task Force and the Air Force Scientific Advisory Board Committee on mobile targets requested a copy of the CIPC/MMP report, especially the Conclusions and Recommendations, as soon as we could give it to them. The Committee Chairmen and Executive Secretaries have been very helpful in sharing information with us on the mobile missile topics. The next two scheduled briefings are the result of the DSB's information sharing efforts.

25X1

- On Friday, 24 May, the Mobile Missile Panel sent a cable to the Rome Air Development Center at Griffiss AFB, NY, requesting three demonstrations and a briefing. The topics requested are: precise target geopositioning, advanced sensor exploitation, cartographic applications to tactical and strategic systems, and advanced imagery exploitation. RADC has been performing research in all these areas and all are relevant to the mobile missile problem.

25X1

Soviet Ballistic Missile Defense: [REDACTED]

25X1

- Last Thursday, Rich contacted [REDACTED] Executive Secretary for the NSA SIGINT Exploitation (Perry) Panel, on the status of the panel's final report on BMD. Bill hopes to have a draft ready for the CIPC by mid-June.

- 25X1
- Rich also attended a meeting arranged by the PBS [] between NSA/A05 [] and CIA/OSO [] to begin the process of responding to a FY 1987 DCI Guidance item [] [] will request that the deadline for the response to CCP/CIAP program monitors be slipped from mid-June to mid-August to allow time for NSA and OSO to define potentially lucrative C³ and production targets []

25X1

Future Intelligence Requirements Forecast (FIRF): William D. White

- The FIRF-based Collection Strategy Evaluation Method (CSEM-FIRF) under development by the CIPC staff was completed and passed to the VC/COMIREX for his review and technical critique. Subsequent to his review, CIPC staff attention will focus on preparing a nontechnical overview briefing of what the method seeks to accomplish, how it goes about it, and the pivotal implementation issues in plain English terms.
